PROFILE

An aspiring backend developer with practical experience developing web applications using Java (Spring Boot), PostgreSQL, and Docker. Passionate about problem-solving, continuous learning, and developing scalable and efficient solutions. Looking to join a team where I can contribute and continue growing as a backend developer.

WORK EXPERIENCE

Secretaría de Transporte Público

SEP 2023 - FEB 2025

Backend Developer

Responsible for developing REST APIs, developing new systems, and maintaining them. I provide ongoing support to newly released projects, ensuring quality and efficiency at every stage.

- Development and maintenance of backend systems using Java (Spring Boot) and PostgreSQL.
- Implementation of new features and bug fixes.
- Deploying applications in Docker/Linux environments.
- Post-launch technical support and REST API documentation.

RS Comercializadora Tapatía

AGO 2020 - ABRIL 2025

Web Developer

Responsible for developing the company's website, developing product databases, and maintaining them.

- Development of the corporate website and its database (products, users).
- Use of technologies such as HTML, CSS and JavaScript.
- Participation in the automation of internal processes using web tools.

EDUCATION

Computer Science Engineer

2020 - 2025

Universidad De Guadalajara | CUTONALÁ

CERTIFICATIONS

- AI Foundations Associate – Oracle (Jun 2025)
- Artificial Intelligence Fundamentals with Capstone Project – IBM (Jun 2025)
- Python sin fronteras: HTML, CSS, Flask y MySQL - Udemy (Agosto 2023)
- Spring Framework 6 & Spring Boot 3 desde cero a experto - Udemy (Marzo 2025)
